

THE CONCEPT OF NATURAL SUSTAINABILITY COLLECTION APPROACH

PARIS, HOME TO SOME OF THE MOST FAMOUS FASHION HOUSES HOSTS PREMIERE VISION LEATHER, AN INTERNATIONALLY RECOGNIZED PROFESSIONAL PLATFORM AND MEETING POINT FOR THE FASHION PARTNERS

Under the umbrella of Acexpiel /Spanish Tanners we discover some of the world's most important partners for the fashion and footwear industry, most of whom will be exhibiting at Premiere Vision Leather.

Concerned and addressing the challenges of sustainability, both in terms of corporate, social and environmental, the fourteen participating companies have, through different approaches showcasing a unified and consolidated approach to their individual collections to strengthen the message of the importance of natural sustainability.

Aqpel, Combalia, Curtidos Badia, Curtidos Bassols, Curtidos Castañer, Curtidos Lajara, FC Creacions, G Estilo, Griñon Furs, Group Miret Export, Inpelsa, Interleather, La Doma and Riba Guixá Curtidos , represent the core of the industry and as a collective have had an active participation in writing the past, present and future of a millennial industry. A history built on working alongside one of nature's greatest wonders to transform it to a sustainable and unique article. And it is this longstanding passion, this desire to perfect, to excel, to exceed expectations, to transform, develop, create and innovate that have not only guaranteed their success, but also have been the founding principles of their sustainable business model approach.

The individual collections, all under the branding of Natural sustainability and embracing animal welfare, covers exquisitely elaborated shearling, furry, fluffy, fearful and fun, brought to you by La Doma, Inpelsa and G. Estilo. Combalia and Castañer return to Premiere Vision after a brief absence, bringing with them their expertise and knowhow translated into unique collections. Curtidos Badia introduces the one step ahead concept through sustainable resources, their exclusive collections a kaleidoscope of colours, patterns and finishings. Aqpel and FC Creacions offers us their unique vision of sustainability through incredible finishes.

Riba Guixa focuses on near-transparencies as an approach to organic and natural sustainability, whilst Inpelsa demonstrates, through their classy and elegant collections that sustainability is a natural process. Interleather once again flatters their clients with their famous diverse collections... In other words, with the presence of the 14 companies, the visitors do not only get to enjoy their collections, but also live the experience, the passion and commitment of hundreds of years of professionalism and dedication towards the sustainability of natural materials.

The Spanish Tanners Association welcome you to Hall 3 and visit the Spanish companies and are happy to answer any questions that you may have.
